EOG RESOURCES REPORTS FIRST QUARTER 2006 RESULTS

- United States Natural Gas Production Increases by 10 Percent Over First Quarter 2005
- Announces Significant North Louisiana Natural Gas Discovery

FOR IMMEDIATE RELEASE: Thursday, May 4, 2006

HOUSTON - EOG Resources, Inc. (EOG) today reported first quarter 2006 net income available to common of \$424.8 million, or \$1.73 per share. This compares to first quarter 2005 net income available to common of \$200.8 million, or \$0.83 per share.

The results for the first quarter 2006 included a previously disclosed \$107.0 million (\$68.8 million after tax, or \$0.28 per share) gain on the mark-to-market of financial commodity price transactions. During the quarter, the net cash realized related to financial commodity contracts was \$30.1 million (\$19.3 million after tax, or \$0.08 per share). Consistent with some analysts' practice of matching realizations to settlement months, adjusted non-GAAP net income available to common for the quarter was \$375.3 million, or \$1.53 per share. Last year's first quarter results included a \$0.9 million (\$0.6 million after tax, or less than \$0.01 per share) loss on the mark-to-market of financial commodity price transactions. The net cash inflow from the settlement of financial commodity price transactions was \$9.8 million (\$6.4 million after tax, or \$0.03 per share). Reflecting these items, first quarter 2005 adjusted non-GAAP net income available to common was \$207.8 million, or \$0.86 per share. (Please refer to the attached tables for the reconciliation of adjusted non-GAAP net income available to common.)

Operational Highlights

United States natural gas production increased 10 percent over the first quarter 2005 with particularly strong performance from EOG's Rocky Mountain, North Louisiana and Fort Worth operations.

Energy Opportunity Growth

In the Rocky Mountains' Uinta Basin in western Utah, natural gas production increased from ongoing drilling success and development activity in the Mesaverde. EOG plans to drill more than 170 wells this year in the Uinta, the majority on its 64,000 net acre position in the Natural Buttes/Chapita Wells areas of the basin. The company has more than doubled its drilling activity from three rigs that were operating in January to the current seven rig program.

In North Louisiana, EOG is participating in several high potential prospects in the Expanded Cotton Valley Play. EOG has a 50 percent working interest in the Marr 24 No. 1, which began natural gas production in February at an initial rate of 7.8 million cubic feet per day (MMcfd), gross. With its partners, EOG is running four rigs across the play.

Also in the Expanded Cotton Valley Play on trend with the prolific Vernon Field, EOG reported a natural gas discovery on the Eros prospect. Drilled to 14,000 feet, the Spillers No.18-1, in which EOG has a 50 percent working interest, encountered significant natural gas pay. Three separate zones were completed, each testing at rates between 3 and 9 MMcfd, gross. A fourth zone remains to be completed. EOG plans to pursue immediate development of the estimated 100 to 200 net billion cubic feet natural gas discovery. Another high impact prospect will be tested in this region later in the year.

EOG reported excellent drilling results from Johnson County in the Fort Worth Basin. In eastern Johnson County, EOG completed the Raam No. 2H, which began flowing to sales in mid-April at 9 MMcfd of natural gas. EOG has a 100 percent working interest in the well, which was drilled as a 500 foot offset location to the previously announced discovery, the Raam No. 1H. In western Johnson County, the Clements No. 1H, in which EOG has a 100 percent working interest, tested at 5 MMcfd of natural gas.

"EOG's first quarter natural gas production from the Fort Worth Basin Barnett Shale Play exceeded our expectations. Across our operations, we added multiple wells at strong production rates that contributed to EOG's robust first quarter U.S. natural gas production growth," said Mark G. Papa, Chairman and Chief Executive Officer.

Capital Structure

During the first quarter, EOG further reduced long-term debt outstanding to \$933 million at March 31, 2006. At quarter end, cash on the balance sheet was \$821 million for net debt of \$112 million. (Please refer to the attached tables for the reconciliation of non-GAAP net debt to current and long-term debt.) The company's debt-to-total capitalization ratio was 16 percent at March 31, 2006, down from 19 percent at December 31, 2005.

"EOG continues to execute its game plan to consistently deliver high organic growth, with low debt and a vigorous rate of return," said Papa.

Energy Opportunity Growth

Conference Call Scheduled for May 5, 2006

An updated investor presentation and reconciliation schedules will be posted to the EOG website prior to the conference call.

EOG's first quarter 2006 conference call will be available via live audio webcast at 9 a.m. Central Daylight Time (10 a.m. Eastern Daylight Time) Friday, May 5, 2006. To listen, log on to www.eogresources.com. The webcast will be archived on EOG's website through Friday, May 19, 2006.

EOG Resources, Inc. is one of the largest independent (non-integrated) oil and natural gas companies in the United States with proved reserves in the United States, Canada, offshore Trinidad and the United Kingdom North Sea. EOG Resources, Inc. is listed on the New York Stock Exchange and is traded under the ticker symbol "EOG."

This press release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical facts, including, among others, statements regarding EOG's future financial position, business strategy, budgets, reserve information, projected levels of production, projected costs and plans and objectives of management for future operations, are forward-looking statements. EOG typically uses words such as "expect," "anticipate," "estimate," "strategy," "intend," "plan," "target" and "believe" or the negative of those terms or other variations of them or by comparable terminology to identify its forward-looking statements. In particular, statements, express or implied, concerning future operating results, the ability to replace or increase reserves or to increase production, or the ability to generate income or cash flows are forward-looking statements. Forward-looking statements are not guarantees of performance. Although EOG believes its expectations reflected in forward-looking statements are based on reasonable assumptions, no assurance can be given that these expectations will be achieved. Important factors that could cause actual results to differ materially from the expectations reflected in the forwardlooking statements include, among others: the timing and extent of changes in commodity prices for crude oil, natural gas and related products, foreign currency exchange rates and interest rates; the timing and impact of liquefied natural gas imports and changes in demand or prices for ammonia or methanol; the extent and effect of any hedging activities engaged in by EOG; the extent of EOG's success in discovering, developing, marketing and producing reserves and in acquiring oil and gas properties; the accuracy of reserve estimates, which by their nature involve the exercise of professional judgment and may therefore be imprecise; the availability and cost of drilling rigs, experienced drilling crews, materials and equipment used in well completions, and tubular steel; the availability, terms and timing of governmental and other permits and rights of way; the availability of pipeline transportation capacity; the extent to which EOG can economically develop its Barnett Shale acreage outside of Johnson County, Texas; whether EOG is successful in its efforts to more densely develop its acreage in the Barnett Shale and other production areas; political developments around the world; acts of war and terrorism and responses to these acts; weather; and financial market conditions. In light of these risks, uncertainties and assumptions, the events anticipated by EOG's forward-looking statements might not occur. Forward-looking statements speak only as of the date made and EOG undertakes no obligation to update or revise its forwardlooking statements, whether as a result of new information, future events or otherwise.

The United States Securities and Exchange Commission permits oil and gas companies, in their filings with the SEC, to disclose only proved reserves that a company has demonstrated by actual production or conclusive formation tests to be economically and legally producible under existing economic and operating conditions. As noted above, statements of proved reserves are only estimates and may be imprecise. Any reserve estimates provided in this press release that are not specifically designated as being estimates of proved reserves may include not only proved reserves, but also other categories of reserves that the SEC's guidelines strictly prohibit EOG from including in filings with the SEC. Investors are urged to consider closely the disclosure in EOG's Annual Report on Form 10-K for fiscal year ended December 31, 2005, available from EOG at P.O. Box 4362, Houston, Texas 77210-4362 (Attn: Investor Relations). You can also obtain this form from the SEC by calling 1-800-SEC-0330 or from the SEC's website at www.sec.gov.

Cash and Cash Equivalents at End of Period	\$	821,327	\$	173,385

QUANTITATIVE RECONCILIATION OF ADJUSTED NET INCOME AVAILABLE TO COMMON (Non-GAAP) TO NET INCOME AVAILABLE TO COMMON (GAAP)

(Unaudited; in thousands, except per share data)

The following chart adjusts first quarter reported Net Income Available to Common to reflect actual cash realized from previously disclosed gas hedges by eliminating the unrealized mark-to-market gains or losses from these transactions. EOG believes this presentation may be useful to investors who follow the practice of some industry analysts who adjust reported company earnings to match realizations to production settlement months. EOG management uses this information for comparative purposes within the industry.

	Quarter Ended March 31
